ABOUT ME AND MY WORK

Typical projects, tasks or challenges you partner with nonprofits on?

My expertise enables me to collaborate with nonprofits and funders on a wide range of initiatives, including organizational development projects, strategic planning, philanthropic advising, and fostering public-private partnerships and community collaborations.

Why would someone choose to work with you?

My expertise in nonprofit strategy and organizational development is grounded in hands-on experience as a CEO leading a growing organization, as well as a foundation vice-president who designed and implemented impactful capacity-building programs. This unique combination enables me to collaborate effectively with executive teams and boards to assess organizational challenges and apply best practices that drive enhanced effectiveness. I approach my work with a positive, strengths-based perspective, recognizing that success is built on the existing talents of leaders, organizations, and the communities they serve.
