ABOUT ME AND MY WORK

Typical projects, tasks or challenges you partner with nonprofits on?

With a decade of experience working in and alongside both for-profit and nonprofit organizations, I've witnessed firsthand the challenges faced by those striving to make a meaningful impact with limited resources. My passion lies in collaborating with such organizations, helping them navigate through complexity and uncertainty to achieve their missions and grow impact through a range of services, including:

- Strategic Planning and Organizational Assessments
- Impact Model Development and Evaluation
- Leadership Transitions and Governance Training
- Program and Revenue Model Assessment
- Workflow Analysis
- Landscape Analyses and Scenario Planning

Why would someone choose to work with you?

When you partner with me, you're not just hiring a consultant; you're gaining a strategic ally who thrives on tackling complex challenges. I bring systems thinking and a deep understanding of impact models, leadership development and operations. I'm passionate about helping organizations identify and leverage the interconnectedness of their operations, programs, partnerships and impact. Whether you're seeking to streamline workflows, uncover new opportunities or openings, develop a compelling impact model, or navigate a critical transition, I'll work closely with you to co-create solutions that are both effective and sustainable.
